October 20, 1987

With great pride, we present our Tenth Annual "Crime in New Hampshire". This Uniform Crime Report documents crime statistics for our State and gives a clear, concise view of the tabulated findings.

Serious crime rose 6% in 1986, continuing the upward trend for the second consecutive year. The increase of major crime may be attributed to several factors. Our population is on the rise going over one million, more travelers are visiting our state, manpower increases in law enforcement and greater accountability in the reporting of offenses by police agencies.

It is pleasing to note that drug offense arrests declined more than 23% from 1985. Certainly, greater emphasis on enforcement and a heightened public awareness of the dangers of drug abuse have contributed to the reduction in drug arrests.

As always, meaningful crime statistics are of great importance to the law enforcement community and the general public. Without the dedication and commitment of our contributing agencies, production of this publication would not have been possible. It is with sincere appreciation that we express our gratitude to those agencies who made the Uniform Crime Reporting Program a success.

Very truly yours,

George L Iverson

GLOSSARY OF TERMS

ADULT - In New Hampshire an adult is a person 18 years of age or above.

CLEARED BY ARREST OR EXCEPTIONAL MEANS - For UCR purposes, an offense is "cleared by arrest" or solved for crime reporting purposes when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over to the court for prosecution. In certain situations, when the police have exhausted all leads and done everything possible to clear a case, the offense can be "exceptionally" cleared. The following conditions have to be met before an offense can be cleared exceptionally: (1) The investigation has definitely established the identity of the offender; (2) There is enough information to support an arrest, charge, and turning over to the court for prosecution; (3) The exact location of the offender is known so that he could be taken into custody; and (4) There is some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender.

INDEX OFFENSES - The sum total of eight major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. The eight offenses are: (1) Murder, (2) Forcible Rape, (3) Robbery, (4) Aggravated Assault, (5) Burglary, (6) Larceny-Theft, (7) Motor Vehicle Theft, and (8) Arson. Each of these offenses is referred to as an "Index Offense."

JUVENILE - In New Hampshire, a person 17 years of age or under.

PROPERTY CRIME - Consists of the Index Offenses of Burglary, Larceny, Motor Vehicle Theft, and Arson.

VIOLENT CRIME - Consists of the Index Offenses of Murder, Forcible Rape, Robbery, and Aggravated Assault.

C A L C U L A T I O N O F R A T E S

CRIME RATE

To compute rates, divide your community's population by 1,000 and then divide the number of offenses by the resulting figure.

Example:

a. Population for your jurisdiction, 31,600.

b. Number of known burglaries for your jurisdiction for a year, 341.

Divide 31,600 by 1,000 = 31.6.

Divide 341 by 31.6 = 10.79.

The burglary rate is 10.79 per 1,000 inhabitants.

CLEARANCE RATE

The percentage of crimes cleared by arrest is obtained by dividing the number of offenses cleared by the number of actual offenses known. This answer is then multiplied by 100.

Example:

$$\frac{55 \text{ Burglaries cleared}}{341 \text{ Burglaries known}} \qquad .16 \times 100 = 16\%$$

Your percentage of clearance for burglary is 16%.

DOMESTIC ASSAULT

In 1979, the General Court mandated the Director of State Police to present an annual report to them concerning the nature and extent of domestic violence in our State. It was decided to collect this data in conjunction with the UCR program by adding a relationship category to the information collected in assaults. The following chart indicates the relationship of the offender to the victim along with the type of weapon used in aggravated assaults and the number of simple assaults for 1986:
